

## **REPORT OF PARENTS' FEEDBACK ANALYSIS FOR THE ACADEMIC YEAR 2023-24**

The purpose of our college is to support students in pursuing their goals and becoming successful professionals by offering assistance in every way. Since parents have put their children's future in our hands, they are crucial to the growth and improvement of the caliber of this educational process. Parent feedback enables the institute to assess the quality of the services it offers and improves its ability to serve children. The process of feedback analysis has resulted in a greater focus being placed on the necessity of parents' involvement in the quality assurance of excellent education. In order to support their children's holistic development, parents must actively participate in their lives. Each year in April at the conclusion of the semester, parents of undergraduate and post graduate students in their last semester receive feedback questionnaires from feedback committee of the college.

### **Objectives of parents' feedback:**

The three primary goals of parent input on the institute are as follows:

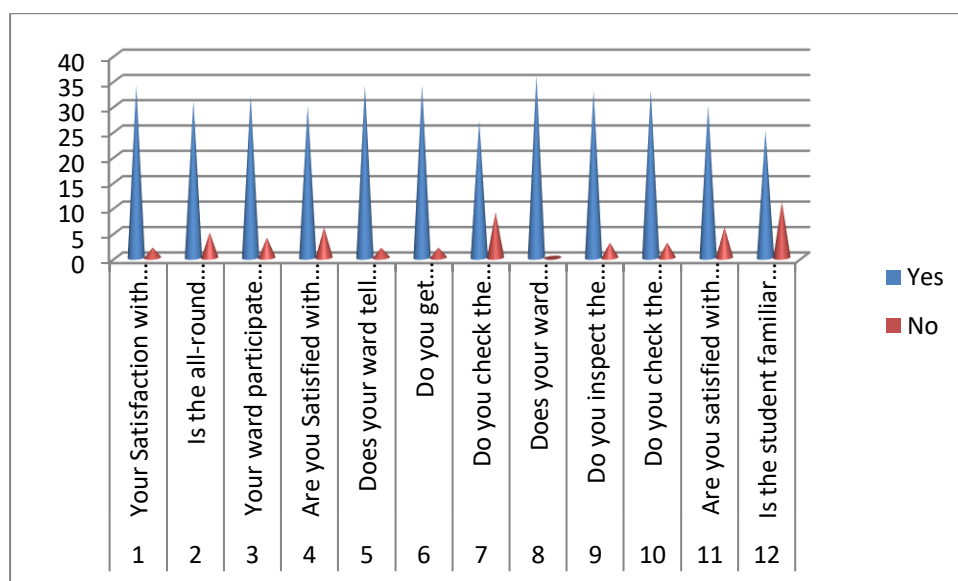

1. To give parents the chance to weigh in on the caliber of their ward's educational experience, if needed in order to get ready for and participate in the review process.
2. To evaluate the effectiveness of academic offerings in light of parents' and students' expectations.
3. To offer faculty input so that the curriculum's content and/or delivery can be enhanced.

### **The following concerns are the main emphasis of the parent feedback form:**

1. Student learning experiences
2. Faculty assessment of their academic abilities and expertise
3. College resources made available to students
4. Evaluate the sports complex and library
5. The college's social climate in terms of inclusivity and diversity.
6. College-sponsored festivals, events, and extracurricular activities
